

CHRISTIAN OUTDOOR LEADERSHIP

S+T+IC+K=Y Note

How did Jesus make His teaching **STICKY** like a **bur** that sticks to your clothes as you walk in the outdoors? The content of His teaching usually catches our attention, but what about the context? If you want to emulate the teaching techniques of Jesus you have to pay attention to your surroundings. He didn't teach in a vacuum. The one-two punch of His teaching style was the way he combined Setting & Timing with Intentional Content to tie the Knot of learning which persuaded people to say Yes to His Good News of the Kingdom of God. A bur is a seed that will grow in good soil. **STICKY** bur method will *stick* with your group because it models the experiential in nature Jesus Christ's teaching style.
